THE BUYER AND SELLER AGREE THAT THE SELLER GIVES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PRODUCTIVENESS OF THE STOCK HEREBY OFFERED, AND ITS RETENTION FOR TEN DAYS AFTER RECEIPT BY THE BUYER WITHOUT COMPLAINT IN WRITING, CONSTITUTES A DEFINITE ACCEPTANCE THEREOF BY THE BUYER. OUR LIABILITY IN ALL INSTANCES IS LIMITED TO THE PURCHASE PRICE. ALL STOCK IS OFFERED SUBJECT TO ANY AND ALL CONDITIONS BEYOND OUR CONTROL.

The writer plans to be in Belgium early in March to give personal attention to the selection of plants to fill orders for April and May delivery.

It is my further intention to act in the capacity of purchasing agent for Flandria orchid plant buyers.

Listed in the enclosed catalog you will find Flandria's "1949" offerings which will permit you an extensive choice, both as to type and flowering time.

If you desire to submit an order for plants to satisfy your requirements for Spring shipment and wish me to follow through as above, kindly do so before March 1st.

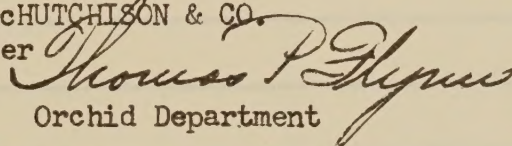

We have every reason to believe that 1949 will be our biggest year in Flandria orchid plant importations and my mission abroad will afford you added assurance that your order will receive special attention.

I look forward to the opportunity of serving you.

Yours very truly,

McHUTCHISON & CO.

WHEN ORDERING INDICATE OFFERING LETTER AND GROUP NUMBER

OFFERING "A"INCENTIVE COLLECTIONGroup I

To satisfy the buyer who wishes to have cut flower coverage during the good marketable season, you may make your own selection from the listed varieties below by holding to a pattern of 5 whites or white with colored lip and 20 colored varieties. These plants are well rooted in 3" pots ready for 4" and most should flower in their next growth and all within two years. Note a saving of \$2.00 per pot in buying the "Incentive collection" of 25 plants for \$200.00.

<u>Cross Number</u>	<u>Cross</u>	<u>Color</u>	<u>Expected Flowering Time</u>
51	C. Enid x Lc. Cassandra, F.C.C.	Dark Purple	Late Fall-Winter

	Phalaenopsis Doris x Phalaenopsis Tetraploid			20.00
	Cymbidium Alexanderii, var. Westonbirt x Cymbidium Youngfrau			20.00
	Cym. Alexanderii, var. Westonbirt x Cym. Ivory wings			20.00
	Cym. Alexanderii, var. Westonbirt x Cym. Diana, var. Bou Herbert Hoover			20.00

INSTRUCTIONS:- With warm water float seedlings out of tube using a probe if necessary. Distribute seedlings evenly on a 6" - 7" pot that has been 2/3 filled with crock topped with a reasonably tight layer of course Osmunda Fiber and a final 1/4" layer of finely chopped brown osmunda. Then place your 6" - 7" seedling pan on upturned small pots, the latter resting in a tray of water at approximately 1" level. Choose a warm section of your greenhouse 60° - 70° and keep well shaded. As seedlings start to root and right themselves, you may transplant to communities at your leisure.

OFFERING "A"Group IIISEEDLINGS IN 2½" COMMUNITY POTS

OFFERING "B"

Group II

OUR SPECIE COLLECTION ESPECIALLY FOR THE FLORIST AND THE BUYER WHO DESIRES GOOD CUT FLOWER COVERAGE

The following plants are of flowering size averaging 4-7 bulbs in 4-5" pots. To clearly indicate a comparison in values we will select plants for this collection. Three each of the varieties C. Mossiae and C. Gaskelliana at \$6.00 per plant and two each of the varieties Trianae, Percivalliana and Speciossima at \$2.50 per plant. - 12 plants \$50.00.

LARGE SPECIE PLANTS IN GOOD SELECTION

Mossiae and Gaskelliana	\$6.00 per plant
Trianae, Percivalliana, Speciossima	5.00 "

SMALLER SPECIE PLANTS IN GOOD SELECTION

Mossiae, Gaskelliana, Trianae, Speciossima, Percivalliana \$2.50 per plant

All the plants are flowering size to flower at next regular blooming period. The larger plants are truly good value and well worth the difference in price. The smaller plants will give you a good return on your investment at this low quotation, although the flower count will be proportionately less than in the larger plants.

Group III

CATTLEYA HYBRIDS - \$10.00 each

The following plants are of flowering size in pot sizes approximately 5" with 4-7 bulbs. If you have no specific variety preference, we would suggest that you leave the selection up to us. In this way we can assure you of obtaining the more robust and choicer plants, allowing you the utmost in value for your money. However, you may make your own selection if you so desire and it will receive our usual careful attention:

<u>VARIETY</u>	<u>COLOR</u>	<u>EXPECTED FLOWERING TIME</u>
C. Atlantic	Light	Winter
C. Maggie Raphael	Dark	Fall
C. Hardyana Warnerii	Orchid	Summer

51	C. Hardyana x C.R.M. Cadwalder	Should be a Summer hybrid. Dark purple.
52	C. Enid x S. C. Hereford	A Fall flowering hybrid. Good lavender.
53	C. Black Prince x Maronia x C. Mirra Alba	A white brasso crossed with a white Cattleya, free flowering hybrid. Winter.
60	C. Triumphaus x C. Prince John	Expecting a good yellow hybrid. Late Summer and Fall
62	C. Gigas x C. Fairwarp	A summer hybrid. Good dark lavender.
66	Lc. Henrietta Patterson Yellow var x C. Prince John	Expecting a winter flowering. Yellow.
63	C. Lady Alexandra x C. Margaret Purcell	A strong grower. Should be a dark summer flower.
65	Lc. Virturosa x C. Percivalliana	A winter Laelia Cattleya. Lavender.
69	C. Hardyana x C. Lord Rothschild (Judah)	This is a well known cross. Summer flowering dark purple to bronze.
70	Lc. Canhamiana x C. Duperiana (Lc. Alarcon)	A promising dark, late Spring hybrid.
72	C. Speciosissima x Bc. J. H. Francis	Should be a useful Winter cross. Dark lavender.
73	C. Edithiae x C. Gravesiana	We look forward to a fine Winter white.
74	Bc. J. H. Francis x Bc. Imperialis	A Winter flowering Brasso Cattleya. Lavender.
78	C. Samuel Endicott x C. Intertexter Juliette.	A summer flowering white of great promise.
79	C. Ancile x C. Harry Gray	This should be a free flowering Fall Cattleya. Dark lavender:
80	C. Duperiana x C. Lady Alexandra	In this cross two very fine types were used. Expect a very fine late Spring hybrid. Dark purple.
81	Lc. Queen Mary x C. Harry Gray	Expect a large, free flowering hybrid. Lavender Fall.
83	Slc. Estelle Jewell x C. Mossiae	Should be a dark purple, Spring hybrid.
84	C. Enid x C. Thuria F.C.C. var.	Should make a fine Fall flower, dark purple to bronze.
85	C. Intermedia Alba x C. Souvenir Louise Sander	A Fall flowering white.
87	Remy Cholet x Lc. Invicta	This should be a very fine Laelia Cattleya. Lavender. Fall
88	Lc. Windermere x C. Mossiae	A Spring flowering Laelia Cattleya. Lavender.

OFFERING "B"Group VIII (CONTINUED)CATTLEYA SEEDLINGS

<u>Cross No.</u>	<u>Variety</u>	
89	C. Bobbie Jewell x C. Royal Alba	A promising white for the Fall
90	C. Gravesiana Alba x C. Souvenir Louise Sander	A Spring and Summer white of fine texture.
91	Lc. Model x Bc. Princess Patricia	Should be a Fall flowering hybrid, Purple.
92	C. Harry Gray x Lc. Callistoglossa	A fall flowering hybrid. Strong grower. Lavender.
94	C. Windermere x C. Titrianae	Expecting a good commercial flower for the Winter. Lavender.
95	C. Trianae x C. James Stuart	A Winter flower. Lavender.
97	Slc. Coumuse x C. Mossiae	Spring Bi-generic hybrid. Reddish purple.
98	C. Gigas x C. Mossiae (C. Enid)	An old standby made from selected parents. Lavender. Fall.
99	C. Enid x Lc. Cassandra	Summer and Fall hybrid of good promise. Purple
100	Bc. Heather Queen x Lc. Ishtar	Outstanding parents used in this cross. Fall and Winter. Purple.
103	C. Snowdon x C. Douaii Alba	A fall flowering white.
104	C. Gravesiana x C. Edithiae	A fine Winter white (Marion Davis)
107	Lc. Schroderae x Lc. Vanessa x Enid	Should be a Fall and Winter hybrid of great vigor. Purple.
108	C. Edithiae x C. Gravesiana	A reverse cross of 104. Winter
109	C. Mina Alba x C. Bobbie Jewell	A stocky, vigorous grower. Should bloom in Fall and Winter. White.
110	C. Duperiana x C. Mossiae (Furnes)	A grand Spring hybrid. Deep purple.
111	Lc. Cleo x Thuria x C. Mossiae	Should be an early Summer bloomer. Lavender.
112	C. Richmond Alba x C. Prince John	Expecting a yellow hybrid of fine quality. Fall.
119	C. Alberto Toselli x C. Priscilla Alba	A white with colored lip. Should bloom in Winter and Spring.
121	C. Trianae x Clotho (Triclotho)	A Winter flowering Cattleya. A splendid commercial variety. Lavender.
122	Bc. J.H. Francis x Charles Futterman	Should be a fine Brasso Cattleya. Deep purple. Winter.
127	C. Percivalliana x C. Enid	A Winter bloomer. Lavender.

Group ICATTLEYA SEEDLING 2" POTS

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
179	C. MEROPE X C. GIGAS VAR. M. BEYRODT Flowers of both parents have white sepals and petals and purple lips. The throats are ornamented with pale yellow areas. Both bloom in the late Spring and early Summer.	\$4.00
182	C. AVERILL (C. LEOMOS X C. GIGAS VAR. M. BEYRODT) This is a mating between two clear whites with purple lips marked with yellow eyes. Both bloom in June or July.	3.50
186	C. GIGAS X LC. BLACK HAWK The first parent is a fine form of this large-flowered Summer species, while the second parent is vigorous and floriferous, with very dark flowers, blooming in the Autumn.	3.00
205	C. TRIANAE VAR. THE PREMIER F.C.C., R.H.S. X LC. TREMPAUEAU This well known variety of Trianae was mated with one of the first to bloom from our line of large flowered, brilliantly colored autumnal hybrids derived from Lc. Red Oak.	2.50
210	LC. ROBERT PATERSON X C. MONONA The parent selected from our stock of the first plant has dark flowers whose lips are marked with yellow veins and reddened at the opening of the mouth. May. The monona parent bears well formed flowers of medium shade and has a fine habit of growth. March-May.	2.00
174	BC. MINERVA (BC. MRS. J. LEEMAN X C. DOWIANA AUREA) Fine forms of the well-known parents were used in this cross. Both have yellow petals and sepals with dark lips. The Mrs. J. Leeman blooms in the Autumn.	4.00
177	LC. BLACK HAWK X LC. WAUBESA Both parents produce medium dark flowers of good size and substance. Black Hawk blooms in early Winter and Waubesa in Late Winter.	3.00
183	BC. MRS. J. LEEMAN X LC. SAM HOUSTON Large richly colored flowers of good texture are expected. The blooming time should be variable.	4.50
187	LC. SAM HOUSTON X BIC. ISHBEL The rich purple lips of the Summer flowering Sam Houston are brightened with a clear eye. Blc. Ishbel blooms in the Spring. It has good color and texture, and a very desirable growth habit.	5.00
192	LC. CALIFORNIA X C. DOWIANA This mating involves two Autumn blooming parents. The improved strain of C. Dowiana was obtained by crossing C. Dowiana aurea with C. Dowiana Rosita. Lc. California has a richly colored lip.	3.00

OFFERING "C"Group IICATTLEYAS IN 3" POTS (INTERMEDIATE PLANTS)

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
74	LC. NAKOMA X C. DOWIANA AUREA Both parents have yellow petals and sepals with very dark purple lips. The hybrid shows exceptional vegetative vigor.	\$17.50
122	C. RAPHAELIDA X LC. RED OAK Both parents have fine, bold flowers in the Autumn and early Winter.	15.00
124	C. MONONA X C. GIGAS Monona has large, phlox-colored flowers in the late Spring with a Mossiae lip. The Gigas parent used has exceptionally clear yellow eyes at the opening of the throat. Gigas blooms in early Summer.	12.50
139	C. TITRIANAE X BC. MARIE-MARIE The former has large broad-petalled flowers suffused uniformly with pale phlox. The throat is brightened with broad yellow-orange eyes. The latter has petals and sepals of amparo purple. The throat is marked with yellow eyes. Both parents bloom in winter.	10.00
156	LC. LA CROSSE X LC. RED OAK Both parents have large, dark rose-purple flowers of heavy texture. The lip on the last parent has a frilled edge and bright yellow eyes. Autumn and early Winter.	15.00

Group IIICATTLEYAS IN 3½" POTS (INTERMEDIATE PLANTS)

184	LC. ISFIELD X CATTLEYA MONA The two Spring blooming parents of great vigor and free-flowering characteristics. Both have medium dark flowers.	7.50
137	C. LABIATA VAR. AUTUMNALIS X LC. RED OAK The form of Labiata chosen to serve as a parent in this cross has good color, size, and texture but differs from the usual lip in this species by having the reddish purple area of the lip restricted to a central bar running from the throat to the notch at the lip's forward margin. A nicely-eyed form of Red Oak was used as the other parent.	20.00

Group IVCATTLEYAS IN 4" POTS (INTERMEDIATE PLANTS)

62	C. MONONA X L. PURPURATA VAR. MARIE LOUISE Both parents are Spring bloomers with a desirable drying texture on aging. C. Monona has an enviable habit of compact growth within the pot. The second parent, in our experience, has been endowing its offspring with flushed petal tips.	10.00
65	LC. BRITTANIA ALBA X LC. CANHAMIANA ALBA Flowers of both parents are of extra fine shape and texture, with sepals and petals of pure white and lips of deep purple.	20.00
134	C. DOWIANA AUREA X LC. LA CROSSE A very vigorous hybrid from Autumn blooming parents with extra large, fine flowers.	20.00

OFFERING "C"Group IV (Continued) CATTLEYAS IN 4" POTS (INTERMEDIATE PLANTS)

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
135	LC. BLACK HAWK X BC. APOLLO VAR. DUKE OF YORK The first parent is a free-flowering, vigorous hybrid with very dark flowers. Apollo also has dark flowers, marked with yellow eyes in the lip. Black Hawk is Autumnal while Apollo blooms in the Spring.	\$15.00
18	BC. MARGUERITE FOURNIER (B. DIGBYANA X C. LABIATA) **MATURE PLANTS** The margin of the lip is deeply fringed. The lip has the same color of phlox as the petals and sepals except for a large yellowish-green area at the opening of the throat.	20.00

Group V CATTLEYAS IN 4½" POTS (INTERMEDIATE PLANTS)

109	C. WINGRA X LC. BLACK HAWK The former parent blooms in the late Spring and has all of the good qualities of C. Dupreana, while the second, a freely flowering type with very dark flowers, is chiefly Autumnal.	12.50
-----	--	-------

Group VI CATTLEYAS IN 5" POTS (MATURE PLANTS)

34	LC. LEONELLA (C.H.S. LEON X LC. NELIA) Many of the plants of this hybrid become very floriferous as they grow older. Some of them, in the past, have produced as many as 15 flowers during the growing season -- as many as seven large, good textured, well formed flowers per lead. The lip is about the same shade of phlox as the petals and sepals but is set off by a large amount of orange-yellow at the opening of the throat. October to March.	40.00
44	C. MORNE LE BIANC (C. EDITHAE X C. JOAN MANDA) These whites bloom mainly in the Spring. They are vigorous plants producing two or three flowering leads for the blooming season. Flower quality is good. Many are worthwhile contemplating as studs.	50.00
53	LC. OCONTO (LC. CANTARA X C. TITYUS) Flowers of medium orchid shade. The throat is variously ornamented with veins and areas of orange-yellow. The expanded part of the lip is darker than the petals and sepals: the throat is intermediate. The blooming season is from September to January.	75.00

Group VII CATTLEYAS IN 5½" POTS (MATURE PLANTS)

549	C. HARDYANA VAR. SANDERIANA (C. GIGAS VAR. SANDERIANA X C. DOWIANA) This variety is the brightest of all the phlox colored types we know. The lip, both throat and expanded part, is of velvety rich deep purple, and is ornamented with clear cut Dowiana type veins on the flange and eyes elongated into bars on either side of the mouth. Chiefly Summer.	45.00
-----	--	-------

OFFERING "C"Group VIIICATTLEYAS IN 6" POTS (MATURE PLANTS)

<u>Cross No.</u>	<u>Variety</u>	<u>Price Each</u>
1	LC. MARTINETTI (C. MOSSIAE X L. TENEBROSA) Petals and sepals of this old favorite are bronzed to varying degrees. The throat is deep reddish-purple. Spring bloomer.	\$17.50
54	BLC. LANGIADE (BLC. GOLD WINGS X BLC. LIEWELYN) Their large bold flowers appear throughout Autumn, Winter and Spring, although they have a greater tendency to bloom in December and January. The flowers are of medium depth in color, but some plants are white with purple lips.	30.00
3055	C. AMABILIS (C. LABIATA VAR. AUTUMNALIS X C. GIGAS VAR. SANDERIANA) The unusually brilliant lip of the Gigas variety has carried through in the hybrid, giving a flower of fine form, medium dark, with considerable yellow in the throat.	35.00
13	C. ENID (C. MOSSIAE X C. GIGAS) These plants have proved to be good producers of cut flowers. Medium dark with some orange in the throat of the lip. Two blooming seasons, February-June and September-December.	40.00

Group IXCATTLEYAS IN 6½" POTS (MATURE PLANTS)

59	LC. ALPHAND (LC. CALLISTOGLOSSA X C. FABIA) Flowers have nice shape and texture. The depth of color varies from pale to dark phlox purple. The lips are frequently long and very dark. Bloom in the last half of the year.	25.00
60	LC. OXFORDENSIS (LC. CALLISTOGLOSSA X C. TITYUS VAR. SUPERBA) Petals and sepals are dark to medium dark. The throat of the lip is frequently long, dark on its upper surface and yellow below as the considerable amount of yellow within shows through. The expanded portion of the lip is dark purple.	30.00

Group XDENDROBIUMS

90	DENDROBIUM PHALAENOPSIS (Species) - **SEEDLINGS IN 2½" POTS** This old favorite was one of our best-sellers last season. Purple flowers on long-lasting sprays are born through the year.	10.00
22	DENDROBIUM SHOREWOOD (D. GATTON MONARCH X D. LADY COLEMAN) **MATURE PLANTS IN 3" POTS** This hybrid is of the nobile type. The flowers are somewhat more rounded than usual; the tips of the petals are darker than their bases.	25.00

OFFERING "C"Group XIPHALAEENOPSIS

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
197	PHALAEENOPSIS BOULDERI (PHAL.VENUSTUS X PHAL.AMABALIS VAR.ELIZABETHAE) Both parents used in this cross have large white flowers with good substance. The plants are ready for transplantation and should bloom within a year. **SEEDLINGS IN COMMUNITY POTS**	\$25.00
30	PHALAEENOPSIS VENUSTUS (P. GILLES GRATIOT X P. AMABALIS VAR. ELIZABETHAE) Flowers are white and have nicely disposed parts. Size is large and texture medium to very good. **MATURE PLANTS IN 5" POTS**	35.00
204	PHALAEENOPSIS JEANNE D'ARC X PHALAEENOPSIS GILLES GRATIOT Vigorous progeny of this mating between two white flowered forms selected for good texture and well-filled flowers. **PLANTS PACKED IN SPHAGNUM READY FOR 3" POTS**	5.00
	PLANTS PACKED IN SPHAGNUM READY FOR 4" POTS	10.00

Group XIICYPRIPEDIUMS (FLOWERING SIZE)

1210	AUREUM LACKENSE X CHESHAM The good sized white standard is marked with a central area of light purple.	20.00
1213	GOLD MOHUR X J. M. BLACK, BECKSTON'S VAR. The standard is nicely spotted on white and green. The flowers are well proportioned and of good size.	35.00
1874	CYMBELINE (EVENLODE X HESKETH) Rich brown sepals and pouch. The dorsal sepal is white and spotted with deep purple. A large nicely marked flower.	50.00
1946	ANITA X SANACDERAE, CRAVEN'S VAR. The petals and pouch are of greenish-yellow. The upper half of the standard is white; the lower green, marked with fine purple spots.	20.00
1947	BAHRAM (ANITA X GRACE DARLING) The flowers have yellow-green petals, pouch and basal portion of standard. Petal margins are nicely undulated.	20.00
1954	BURNHAM X WARRIOR Flowers are of good size and conformation. Purple spots are nicely disposed over white and green areas of the standard. Petals and pouch are a warm brown.	30.00
1956	BURNHAM X ALDERMAN Flowers are well formed. Standard has mid-stripe of purple and is mostly white. The remainder of the flower is tan, the petals having a darker mid-stripe.	30.00
1971	CAPPA MAGNA X HIAWATHA VAR. ST. MARY'S Plants of this hybrid produce flowers which resemble hirsutissium in shape and disposition of floral parts. The standard may be green or cream, ornamented with closely grouped dots of brown. The petal tips are either mahogany or purple.	20.00

OFFERING "C"Group XII (Continued)CYPRIPEDIUMS

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
1973	CHESHAM X FLORENCE SPENCER White dorsal sepals ornamented with dark purple or reddish purple spots of various sizes.	\$30.00
1976	CHESHAM X GWENPUR The standard is broad and almost entirely white. The central part and basal third is colored with reddish purple which may be diffused to some extent.	30.00
1992	GOLDEN MORN X MERLIN Some plants have flowers with a large white area in the standard, marked with a central, purple stripe and spots of small size. Pouch and petals are yellow green suffused variously with brown.	20.00
1997	GOLD MOHUR X J. M. BLACK The petals and pouch are a richly shaded brown. The standard is marked with dark purple spots of various sizes.	25.00
2030	MACORSLEY (MACAW X WORSLEYII A.M.) Bright flowers of good size and texture. Petals and sepals are deep reddish brown to almost dark wine-colored and glossy. The standard sepal is marked heavily with irregular areas of wine red. A few plants have spotted standards.	30.00
2031	VIGOROUS (CAPPA MAGNA VAR. F. SANDER X SPICERIANUM) Flowers are medium size and rounded shape. The standard is clear, velvety and white. Pouch and petals are green.	25.00
2033	CASCADE (ETTA X LUCULLUS) Pouches and petals are flushed with reddish purple. The standard is spotted boldly with large purple areas.	30.00
2036	ERIAD (GREY FRIAR X EVENTIDE) Standard sepal is almost entirely of a color near amaranth purple although the upper part may be clear white. The petals are tan flushed with red; the pouch is lighter.	50.00
2038	ONESCA (NORREYS X CAMEO) Flowers have good texture and size. The dorsal is white and is ornamented with purple.	45.00
2044	WOLSTED (SWALLOW X EASTER HERO) Standard sepal is largely white with well distributed purple spots. Its shape and texture outstanding. The pouch and petals are ruddy brown.	60.00
2049	DALLA (THE GHURKA X LUNA, A.M. VAR.) There are several varieties within this group of hybrids. One has glossy green floral parts. The petals and the lower one-third of the standard are marked with dark mahogany. The other type has a somewhat broader standard which has a white background spotted centrally with brown on a cream background.	35.00

OFFERING "C"Group XII (Continued)CYPRIPEDIUMS

<u>Cross No.</u>	<u>Variety</u>	<u>Price</u>
2051	ATRA (GOLD MOHUR X GOLDEN WREN) Standard sepal has dark spotting over green background. Petals are flushed brown. Large and striking.	\$25.00
2076	BROTHER CARIMAR (Cardinal Mercier x Grey Friar) This hybrid exists in a surprising diversity of forms and patterns of coloration. All are superior, however, in size, shape, texture, and quality of color.	60.00

Group XIIICYMBIDIUMS (SEEDLINGS IN COMMUNITY POTS)

255	CYMBIDIUM PRESIDENT WILSON X C. ERICA SANDER The President Wilson parent is a free flowering white of good substance and size with purple areas on the lip and flushed on the back side with pink. The Pitt variety of Loqianum was used in producing it. The Erica Sander parent is a fine example of this chaste green flower whose cream-colored lip is marked with brown areas at the borders.	17.50
261	CYMBIDIUM PRINCESS INGRID X LOUIS SANDER The Princess Ingrid used as a seed parent has dark reddish pink flowers. The pollen parent has large white flowers with purple markings on their lips and faint suffusion of purple on their back sides.	15.00
266	CYMBIDIUM EGRET X ERICA SANDER Both parents bear flowers which have green petals and sepals contrasting with cream colored lips. Faun-brown spots are scattered sparsely over the expanded portion of their lips.	15.00
267	CYMBIDIUM SAVANNAH X C. JOYFUL The Savannah parent is a cross between President Wilson and Joy Sanders. It has a yellow background flushed and veined with brown. Joyful has a yellowish-brown background with a darker midregion in the sepals and is veined with pink. Both have lips marked with Lowianum type area of reddish-brown and both produce a large number of flowers per spike.	17.50
273	CYMBIDIUM LOWIANUM X C. (ALEXANDERI VAR. WESTONBIRT X GLORIANA) The species produces long drooping spikes bearing many yellow-green flowers. Their lips are cream, each marked with a distinctive bar across the front portion. The other parent is a superior yellow-bronze flowered type selected from the variety within this hybrid. The lip is marked with large reddish-brown spots.	17.50

Group XIVCYMBIDIUMS (SEEDLINGS IN 2" POTS)

159	CYMBIDIUM FLAME. (CYM. LOUIS SANDER X CYM. CERES VAR. F.J. HANBURY F.C.C., R.H.S.) The Louis Sander parent produces large, heavy, nicely formed, flushed white flowers. The Ceres used is a rich dark flowered variety which produces a goodly number of blooms per spike.	6.00
-----	---	------

OFFERING "C"Group XVCYMBIDIUMS (SEEDLINGS IN 2½" POTS)Cross No.VarietyPrice

- 4 Cymbidium ALEXANDERI VAR. WESTONBIRT X C. PEREGRINIE \$10.00
The plant of Peregrine used to mate with this famous variety of Alexanderi is a fine early blooming type. Both parents are of great value for cut flower purpose. Ready for transplantation to 3½" pots.

Group XVICYMBIDIUMS (SEEDLINGS IN 3" POTS)

- 148 C. JOY SANDER X INCA II 6.00
This Joy Sander was produced by mating the Compté de Hamptinne var. of Pauwelsii with the F. J. Hanbury var. of Ceres. It has striking dark flowers. The Inca II parent is a large, faintly flushed white which has a heavy texture.

Group XVIICYMBIDIUMS (MATURE PLANTS IN 4½" POTS)

- 3027 Cymbidium ALDIS LAMP (Cymb. Alexanderi x C. Carisbrook) 32.50
The Alexanderi influence is very pronounced in this hybrid. The flowers are large, have good texture. The background color is various shades of cream. The lip is marked with a variety of spots.

Group XVIIICYMBIDIUMS (MATURE PLANTS IN 5" POTS)

- 2169 Cymbidium GREEN SCAMP (C. LOWIO-GRANDIFLORUM X C. MIRABELLE) 42.50
The flowers are green or yellow-green and may be veined or flushed with brown. The background of the lip is cream and is brightened by a reddish brown Lowianum type marking.
- 2162 C. JANETIE (JOY SANDER X ALEXANDERI VAR. WESTONBIRT) 60.00
The flowers of this hybrid are white or white flushed with pink. The lips are marked with purple. Of good size and quality.

Group XIXCYMBIDIUMS (MATURE PLANTS IN 5½" POTS)

- 3025 C. CONINGSYANUM X CAPRICE 35.00
Two species, grandiflorum and insigne Sanderæ, which have contributed so many outstanding plants, occur rather recently in the parentage of this hybrid.
- 3036 C. LOUIS SANDER (C. CERES X ALEXANDERI, WESTONBIRT VAR.) 45.00
This hybrid produces flowers of superior texture and coloring.

Group XXCYMBIDIUMS (MATURE PLANTS IN 6" POTS)

- 2145 Cymbidium RHODA (CYMB. FLAMINGO X CYMB. PAUWELSII) 32.50
Free flowering plants with pink flowers. The petals and sepals are in general well veined. The lip is variously marked with reddish-purple areas.
- 2158 Cymbidium MIREBELAIS (CYMB. ALEXANDERI VAR. HAMILTON SMITH X C. WARBLER) 35.00
Most plants have pink flowers, although some have yellow, yellow-green, or yellow suffused with pink. The lips have reddish-purple spots and blotches.

OFFERING "C"

TERMS AND CONDITIONS OF SALE - DOMESTIC STOCK

1. All domestic stock listed is offered subject to prior sale. Delivery is subject to any and all conditions beyond the grower's and/or our control. Cancellations subject to grower's acceptance.
 2. Minimum orders \$50.00 ON EACH INDIVIDUAL OFFERING LISTED.
 3. All orders F.O.B. New York except where otherwise noted.
 4. TERMS:- 30 days net to those of approved credit. If you have not already established credit with us and desire open account terms, please send a few trade and bank references with order.
 5. Please include shipping instructions with order - whether by air or railway express. If shipping instructions are not included with order, we will use our best judgment in that regard.
 6. Plants are considered to be the property of consignee upon delivery to carrier at F.O.B. point.
 7. INDICATE OFFERING LETTER AND GROUP NUMBER WHEN MAKING SELECTION.
- - - - -

TERMS AND CONDITIONS OF SALE OF FLANDRIA OFFER

NOTE: ALL ORDERS IN EXCESS OF \$200.00 FOR FLANDRIA STOCK ARE SUBJECT TO A 10% DISCOUNT FROM PRICES LISTED. MINIMUM ORDERS \$200.00.

Terms of sale:- These plants are offered for the account of FLANDRIA, BRUGES, BELGIUM, and are subject to crop and prior sale. Prices include all charges, such as packing, certificates, foreign inland charges, etc., to F.O.B. steamer Antwerp or delivery to the airport (if by air). Thereafter the goods travel at the buyer's risk and expense. Orders are relayed to Flandria for their acceptance, and, if accepted by them, delivery is subject to any and all conditions beyond their or our control. Cancellations are subject to Flandria's acceptance.

Terms of payment:- 50% cash payable on acceptance of order, the balance payable upon receipt of advice that shipment is ready or enroute. All payments net cash. Freight, duty and other forwarding charges are payable to and handled by the American Express Co.

Insurance:- On air shipments, all risk insurance, which includes coverage against heating and freezing on a warehouse to warehouse basis, is available at a cost of approximately 6% of the value of the order. On boat shipments, all risk insurance amounts to approximately 12%. Insurance for ordinary transportation risks, not including heating and freezing, amounts to approximately 2% of the order value. (The amount of the policy includes the value of the plants, plus customs duty and transportation charges). If insurance instructions are not specified with order, we will use our best judgment in that regard.

Duty:- THE DUTY ON ORCHID PLANT IMPORTATIONS IS 7½%.

Shipping instructions:- Shipments will be made by either surface or air transportation. The American Express Company will act as customs brokers, make the entry, arrange for clearance of the plants through quarantine and handle all details of shipping. (In the event of strikes, or other disturbances, Flandria, the forwarding agents, and ourselves will use our best judgment to protect your interests, but without responsibility). If shipping instructions are not specified with order, we will use our best judgment in that regard.

Route:- All plants will be imported via New York for inspection by the Bureau of Plant Quarantine at Hoboken, New Jersey. (In the case of West Coast shipments, inspection may also be made at San Francisco and Seattle). Shipments arriving in this country can be reforwarded via air or railway express. In the event shipments arriving by steamer are to be reforwarded by air, the plants will be repacked in lighter cases at the buyer's expense, if desired.

When ordering give shipping and insurance instructions. Name second choice in case varieties you want are sold out.

NOTE: For terms and conditions
of sale see page 28

LIST I

CATTLEYA HYBRIDS (ADULT PLANT 4-6 BULBS WITH LEAVES)

No. Plants Available	Variety	Flowering Period	COLOR & DESCRIPTION	PRICE EACH
25	Bc. Helena (Bc. Sindoro x C. Suzanne Hye)	Mar-June	Light blush to rose. Fine and very large flowered. One of the best Brassos, flowering abundantly and regularly.	\$15.00
5	Bc. Hilda (C. Queen Mary x Bc. Sindoro)	Mar-April	Blush. Large rounded lip; good texture.	15.00
15	Bc. Liesbeth Hacke (Bc. Sindoro x C. Woltersiana)	Jan-Mar	Dark color. Usually very dark lip, magenta and deep purple. Very large flowers.	20.00
10	Bc. Monte Carlo (Bc. Mossiana x C. Titrianae)	Mar-May	Large Flowers. Soft rose to deep rose. Large frilled lip.	12.00
	Bc. Regalia (C. Trianae x Bc. Mossiana var. Mlle Louise Pauwels)	Mar-April	Fine Variety. Large shapely flowers. Mostly mauve-rose with dark lip. Very useful for cutflower production around Easter.	15.00
30	Bc. Rita (C. Mossiae x Bc. Sindoro)	April-May	Dark lip. Petals and sepals rose. A commendable Brassocattleya	15.00
10	Bc. Roi Leopold (C. Pauwelsii x Bc. Sindoro)	April-May	One of the very best Brassos. Very large strong flowers, rose to dark mauve-rose. Lip mostly deep magenta and crimson	18.00
5	Bc. Sinco (C. Mem. Cogghe x Bc. Sindoro)	Jan-Mar	Very fine. Some are dark rose with very dark lip, but quite a number are almost pure white with colored lip.	18.00
5	Bc. Sindoro (Bc. Vilmoriniana x C. Empress Frederick)	April	An outstanding Brasso for hybridising, dark rose, large flowers of heavy substance.	40.00
15	Bc. Sterling (Bc. Sindoro x C. Titrianae)	Feb-April	A good sized hybrid, light in color with a well-matched lip.	12.00
	Bc. Trisin (Bc. Sindoro x C. Trianae)	Jan-Mar	A new hybrid. Strong good sized flowers, mostly light blush and soft rose. Large well-shaped and frilled lip.	15.00
5	Blo. Allegro (Lo. Britannia x Blo. Canari)	Feb-Mar	Dark mauve and bronze with very dark lip.	15.00

A SHORT CUT TO SAVE YOU TIME AND MONEY

THE BUYER AND SELLER AGREE THAT THE SELLER GIVES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PRODUCTIVENESS OF THE STOCK HEREBY OFFERED, AND ITS RETENTION FOR TEN DAYS AFTER RECEIPT BY THE BUYER WITHOUT COMPLAINT IN WRITING, CONSTITUTES A DEFINITE ACCEPTANCE THEREOF BY THE BUYER. OUR LIABILITY IN ALL INSTANCES IS LIMITED TO THE PURCHASE PRICE. ALL STOCK IS OFFERED SUBJECT TO ANY AND ALL CONDITIONS BEYOND OUR CONTROL.

You can waste a lot of time looking for the item you want in a catalog. Often when you do find it, the supplementary information is either inadequate or only found after another prolonged search.

To enable you to get complete information on the items in which you are interested, we are enclosing a card listing the stock we have available for you. By returning it to us, you will get, by return mail, the information you want.

Our Fall listings include some particularly new and outstanding presentations in the orchid plant line. We refer specifically to CONTROLLABLE SEEDLINGS. These are seedlings which can be made to flower in good marketable seasons and, in some varieties, it is possible to narrow their flowering period within a few weeks range at the holiday periods.

FLANDRIA'S Fall listings are particularly appealing this year for those growers who wish to acquire seedlings approaching flowering size.

We are in a position to offer for a limited period some startling new reduced quotations on Cattleya hybrid seedlings in community pots ready for transfer and also seedlings approaching flowering size.

In the supply line you are urged to check our new and reduced prices on orchid tubes and caps. We will not go into the why and wherefore of these new low quotations. Sufficient to say they may be only temporary.

We are in an excellent position to satisfy your orchid requirements in that we have so many sources of supply. WE ACT AS YOUR PURCHASING AGENT WITHOUT CHARGE TO YOU AS OUR COMMISSION IS ABSORBED BY THE SELLER. Because of the volume of business we do our sources of supply give our orders careful and particular attention. These are not idle and empty statements but can be borne out.

The enclosed card is your short cut to saving time and money. Mail it today.

Yours very truly,

McHUTCHISON & CO.
